**Your academy going digital**

# Infoscreen

ecadia™ learning management

# ecadia Infoscreen
## on-site screen that shows participants where their current courses take place

**The information board in the entrance area of your academy**

ecadia Info screen presents your daily agenda, so your participants can get all the necessary information about their course quickly and easily .

You can use existing display devices because ecadia Infoscreen uses standard screens of any size.

There is no extra work to provide the display data because ecadia Info screen uses the current daily data from the ecadia database.

**Clear display even with a large offer**

Even a large offer is not a problem because the display can either switch between several panels or the entries can be scrolled. The display updates automatically at regular intervals.
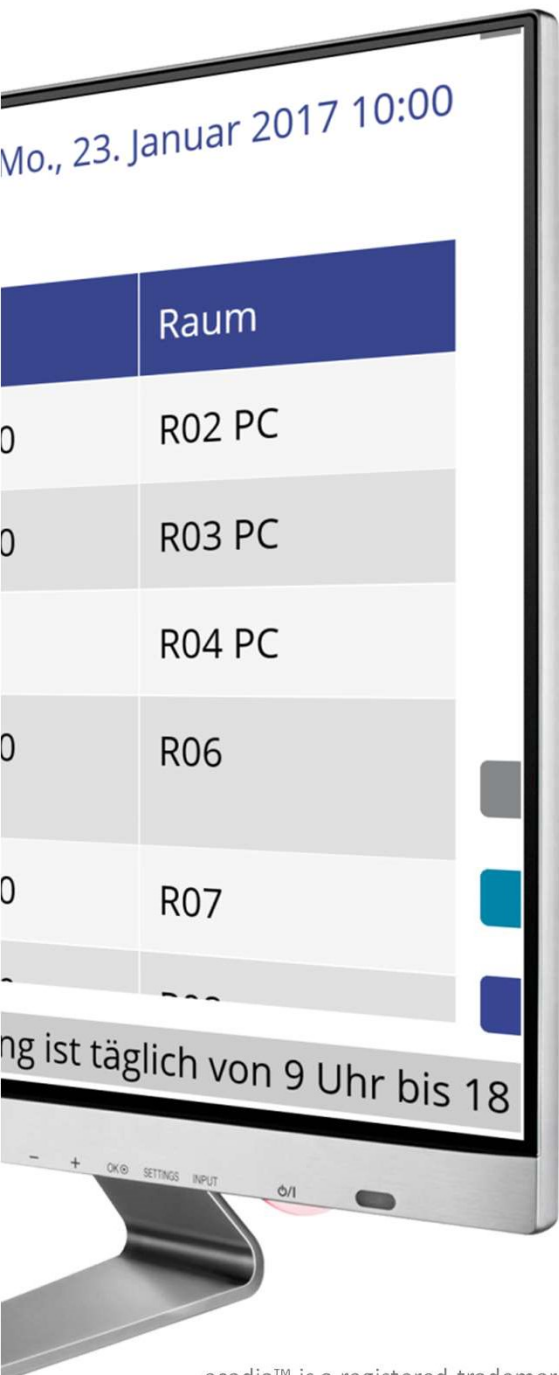

# ecadia room information boards
## offers optimal information for your seminar participants and lecturers

### Your information board for the seminar room

Also, there is an information board for individual rooms that shows the current occupancy. Additional message texts provide further information about the course in the room.

Display device can be commercial tablets with active or passive display. The layout can be easily adapted to your requirements: logos, colors or fonts, anything is possible.
